CHOOSE A PRIMARY CARE PHYSICIAN (PCP)

When you enroll, you choose a PCP from the GlobalHealth provider network. Each member of the family may choose a different PCP, including a pediatrician for children. You may change your PCP selection at any time throughout the year. Your PCP change will be effective the same day.

Always start with your PCP. **\$0 copay.**

Your PCP will coordinate and manage your medical care including preventive care and referral requests if specialty care is necessary.

Specialist visits require referrals.

When appropriate, your PCP will submit a referral on your behalf for specialty care. A preauthorization from GlobalHealth is required. Do not make an appointment until you receive the authorization letter. The specialist may submit referrals for procedures and follow-up care after the initial visit.

Hospital visits require referrals.

A referral and preauthorization from GlobalHealth are required for scheduled stays. You may only go to a hospital in the network except in an emergency.* You do not have to obtain preauthorization for emergency services or stays in connection with childbirth. If you obtain other services without an authorized referral, you will be responsible for the costs. You may go to any emergency room, but you may be balance billed if you choose an ER that is not in-network.

Emergency Care.

Let your PCP & GlobalHealth know within 48 hours of being seen. We may arrange to transfer you to an in-network hospital if you are admitted to an out-of-network hospital from ER.

BALANCE BILLING BY AN OUT-OF-NETWORK PROVIDER

Balance billing occurs when a provider bills you the difference between its billed charge and the total amount the provider received from your cost-share and our usual and customary reimbursement for approved covered services. In-network providers may not balance bill you. Out-of-network providers may balance bill you and you will be responsible for the difference between our payment and the provider's billed amount.

Special Situations

We maintain a comprehensive network of providers. As a general rule, you must receive care from providers within our network. However, there are some limited situations in which you may see an out-of-network provider. We pay usual and customary reimbursement. You could be balance billed:

- If you must seek urgent care when out of our service area.
- If you are treated for emergency services while out-of-network.
- If we do not have a provider in our network to take care of your condition and we authorized a referral to an out-of-network provider.
- If we have authorized services or treatment at an in-network facility and you receive ancillary services or treatment from an out-of-network provider.
- If we have approved you to see a provider through the continuity of care or transition of care process.

If you believe a provider has balance billed you in error, call Customer Care.

**Please Note: Generally, inpatient and certain outpatient services must be preauthorized. You do not have to obtain preauthorization for emergency services or stays in connections with childbirth. If you obtain other services without an authorized referral, you will be responsible for the costs. You must go to a network facility for non-emergency services including childbirth. You may go to any emergency room, but you may be balance billed if you choose an ER that is not in-network.*

YOU MAY SELF REFER FOR THE FOLLOWING SERVICES

You do not need preauthorization from GlobalHealth or from your PCP in order to obtain in-network care for the following services:

Obstetrical/Gynecological Services and Well-Woman Exams

From a healthcare professional who specializes in obstetrics or gynecology.

Routine Mammogram

From an imaging center.

Physical Therapy

For an evaluation only from a healthcare professional who specializes in physical therapy. You will need preauthorization for any additional treatment.

Routine Eye Exams & Eyewear

From a network optometrist & eyewear providers.

Behavioral & Mental Health/Chemical Dependency Services

Medication management, therapy, and/or psychiatric testing from a healthcare professional who specializes in behavioral health.

After-Hours Urgent Care Visits

In-network.

URGENT CARE VS. EMERGENCY ROOM

It is important to choose the appropriate place of care when it comes to injuries and illnesses. More than 50% of ER visits could be handled more efficiently in an urgent care*. Urgent care does not take the place of your Primary Care Physician (PCP). If possible, always visit your PCP first for non-life threatening injuries or illnesses.

URGENT CARE \$25 copay		EMERGENCY ROOM \$250 copay	
Minor Injuries	Minor Illnesses	Life-Threatening Injuries	Life-Threatening Illnesses
<ul style="list-style-type: none"> • Stitches • X-rays • Sprains • Fractures • Minor cuts and burns 	<ul style="list-style-type: none"> • Cold • Flu • Sore throat • Low-grade fever 	<ul style="list-style-type: none"> • Severe cuts • Severe burns • Broken bones • Head trauma 	<ul style="list-style-type: none"> • Chest pain • Stroke • Trouble breathing • Severe abdominal pain • High-grade fever

OR

Still unsure? Call your in-network urgent care center and ask if they treat your symptoms. The above scenarios do not outweigh your personal judgment.

When it's an emergency, go to the nearest hospital emergency room and follow these steps:

- Show your member ID card.
- Call GlobalHealth's Customer Care within 48 hours, ask for Case Management and inform them you were treated in the ER.
- Call your PCP's office within 48 hours. Tell them you were treated in the ER.
- If you are admitted to an out-of-network hospital, GlobalHealth may arrange to transfer you to a hospital in the network.
- All follow-up care must be provided or arranged by your PCP. Preauthorization by GlobalHealth may also be needed.
- Be aware, an out-of-network provider may balance bill you. An in-network provider may not balance bill you.

GlobalHealth's Preferred Formulary Drug List

Preferred drugs are listed in the Drug Formulary. It includes generic and brand name medications that are approved by the FDA.

The list of drugs is subject to change.

- New medications may be introduced or a generic may become available.
- Coverage will not be discontinued or reduced for a drug except:
 - when a new or lower cost therapeutic equivalent medication becomes available; or
 - when new adverse information about the safety or effectiveness of a drug is released.
- If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher tier, we will notify affected members of the change at least 60 days before the change becomes effective.

If the FDA deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, the drug will be removed immediately from our formulary and you will be notified.
