

Mental Health/ Substance Abuse Coordination of Care Screening and Referral Form Instructions

If you are caring for a GlobalHealth member with both medical and mental health needs and you think he/she could benefit from coordinated care, please discuss the option with your patient.

To refer for coordinated services, please complete the “Coordination of Care Screening and Referral Form” with your patient and **fax** the completed form to:

GlobalHealth UM
Fax: (405) 280-5456
Telephone: (405) 280-5658

Do NOT email the Screening and Referral form.

We encourage you to obtain a PHI release from you patient, so that treatment information can be shared. The form is available on our website on the providers form page, under the Behavioral Health section.

Please remember, GlobalHealth members can self-refer for mental health, chemical dependency and alcohol/substance abuse services by contacting Customer Care at the phone number on their GlobalHealth ID card.
