Member Experience Advisors are available 8 a.m. - 8 p.m. local time, seven days a week.

How it Works

Request Help or Support

As soon as the button on your wearable is pressed or a fall is detected, you are instantly connected to our dedicated Concierge Call Center agent.

Connect with an Operator

One of our trained operators views your profile, speaks with you through the device to assess your situation, and get you the help you need right away.

Help is on the Way

In the case of an emergency, local dispatch is summoned immediately. For non-emergent needs or concerns, our monitoring agents connect you with the appropriate services or benefits provided by your health plan.

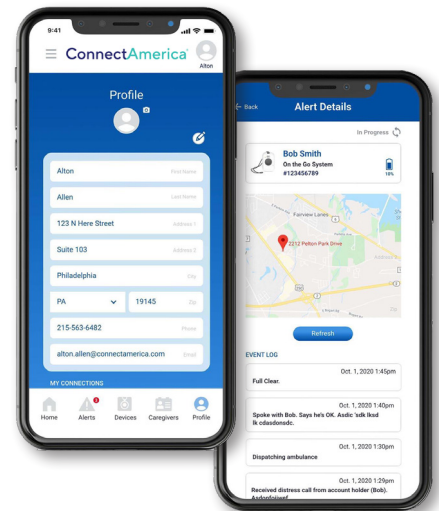

Connect America Notify™ App

Helps caregivers know their loved ones are safe.

Users can easily:

- View all connected devices
- Review incidents in event log
- Locate a member's PERS device
- View device battery status
- Edit user and caregiver profiles, permissions, and contact details

Download the Connect America Notify App to your mobile device

*Disclaimer: Fall detection does not detect 100% of falls. If able, users should always press their button when they need help. Button signal range may vary due to differing environmental factors. On the Go pendants require adequate cellular coverage. Pendant coverage is subject to the device location, environment, equipment, and facility conditions. HomeSafe buttons are waterproof up to one meter of water for 30 minutes. On the Go pendants are water-resistant. Battery life is based on standard operation and may vary with activity. Refer to the applicable IFU, User Guide, or Quick Start Guide for more details.
