## Section 1 - Introduction

This directory provides a list of Globalhealth, Inc.'s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You should use this directory to select a PCP. Your PCP will not only provide basic and routine services, but also coordinate any specialty care for covered services you may need. In most cases, you will need to see your PCP to get a referral for covered services.

You can get the services listed below without getting approval in advance from your PCP.

- Routine women's health care, which includes breast exams, screening mammograms (x-rays of the breast), Pap tests, and pelvic exams as long as you get them from a network provider.
- Flu shots, Hepatitis B vaccinations, and pneumonia vaccinations as long as you get them from a network provider.
- Emergency services from network providers or from out-of-network providers.
- Urgently needed services from network providers or from out-of-network providers when network providers are temporarily unavailable or inaccessible (e.g., when you are temporarily outside of the plan's service area).
- Kidney dialysis services that you get at a Medicare-certified dialysis facility when you are temporarily outside the plan's service area. (If possible, please call Customer Care before you leave the service area so we can help arrange for you to have maintenance dialysis while you are away. Phone numbers for Customer Care are printed on the back cover of this booklet.)
- Chiropractic services as long as you get them from a network provider.
- Preventive dental services as long as you get them from a network provider.
- Outpatient mental health and substance abuse individual or group therapy visits as long as you get them from a network provider.
- Eye exams and eye wear as long as you get them from network providers.

You will have to choose one of our network providers who are listed in this directory to be your **Primary Care Physician (PCP)**. The term "PCP" will be used throughout this directory. Generally, you must get your health care services from your PCP.

The "network providers" listed in this directory have agreed to provide you with your [insert appropriate term(s)]: health care/vision/dental services. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from non-network providers. Other physicians/providers are available in our network.

In cases where non-contracting providers submit a bill directly to the enrollee, the enrollee should not pay the bill, but should submit it to the plan for processing and determination of enrollee liability, if any.

You may get covered emergency medical care whenever you need it, anywhere in the United States and territories. Our plan covers ambulance services in situations where getting to the emergency room in any other way could endanger your health. For more information, see the Chapter 4 of your Evidence of Coverage.

You must use plan providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor GlobalHealth will be responsible for the costs.

When you are outside the service area and cannot get care from a network provider, our plan will cover urgently needed services that you get from any provider. Our plan does not cover urgently needed services or any other services if you receive the care outside of the United States.

## Pharmacy Directory

[Type of pharmacy as applicable: Retail, Mail Order, Home Infusion, Long Term Care (LTC), Indian Health Service/Tribal/Urban Indian Health (I/T/U)] This section provides a list of GlobalHealth's network pharmacies. To get a complete description of your prescription coverage, including how to fill your prescriptions, please review the Evidence of Coverage and GlobalHealth's formulary.

We call the pharmacies on this list our "network pharmacies" because we have made arrangements with them to provide prescription drugs to Plan members. In most cases, your prescriptions are covered under GlobalHealth only if they are filled at a network pharmacy or through our mail order pharmacy service. Once you go to one pharmacy, you are not required to continue going to the same pharmacy to fill your prescription but can switch to any other of our network pharmacies. We will fill prescriptions at non-network pharmacies under certain circumstances as described in your Evidence of Coverage.

All network pharmacies may not be listed in this directory. Pharmacies may have been added or removed from the list after this directory was printed. This means the pharmacies listed here may no longer be in our network, or there may be newer pharmacies in our network that are not listed. This list is current as of September 30, 2016. For the most current list, please contact us. Our contact information appears on the front and back cover pages.

Changes to our pharmacy network may occur during the benefit year. An updated Pharmacy Directory is located on our website at [www.globalhealth.com/medicare](http://www.globalhealth.com/medicare). You may also call Customer Care for updated provider information.

You can go to all the pharmacies on this list, but your costs for some drugs may be lower at pharmacies in this list that offer preferred cost sharing. We have marked these pharmacies with "Y" to distinguish them from other pharmacies in our network that offer standard cost sharing. Cost sharing information can be found in the Summary of Benefits.

You can get prescription drugs shipped to your home through our network mail order delivery service. For more information, please contact us or see the mail order section of this pharmacy directory.

If you have questions about any of the above, including for instructions on how to submit claims for prescriptions that you had to fill at a non-network pharmacy, please see the first and last cover pages of this directory for information on how to contact GlobalHealth.
