Important Information

Find a Primary Care Physician fast

When you enroll, you choose a PCP from the GlobalHealth provider network. Each member of the family may choose a different PCP, including a pediatrician for children. You may change your PCP selection at any time throughout the year. Your PCP change will be effective the first day of the following month. If you need to see a PCP before you receive your new member ID cards, contact Customer Care.

To find a primary care physician near you, check your Physician & Health Providers Directory or visit www.GlobalHealth.com and click “Find a Provider.”

Always start with your PCP

\$0 copay for unlimited primary care physician visits.

Your PCP will coordinate and manage your medical care including preventive care and referral requests if specialty care is needed. Do not make your appointment with the specialist until you receive the authorization letter from GlobalHealth. The specialist may request preauthorization for procedures and follow up care after the initial visit. For urgent care needs, call your PCP if during normal office hours. A referral is not required for specific self-referral services.

Hospital visits require referrals

A preauthorization from GlobalHealth is required for scheduled stays. You may only go to a hospital in the network, except in an emergency. You do not have to obtain preauthorization for stays in connection with childbirth. If you obtain other services without an authorization, you will be responsible for the costs.

Emergency Care

Let your PCP and GlobalHealth know within 24 hours of being seen. We may arrange to transfer you to an in-network hospital if you are admitted to an out-of-network hospital from ER. You may go to any in-network emergency room and pay your regular copay.
